Alternative Book Press, United States, 2013. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.This book presents a new, universal script, denoted NAVLIPi, capable of expressing all the world s languages, from English and Arabic, to tonal languages such as Mandarin, to click languages such as !Xo Bushman. Based on the Roman script, NAVLIPi uses just five new or transformed letters (glyphs) in addition to the 26 letters of the Roman script; it uses no diacritics, rather making heavy use of post-ops, post-positional operators. Its expression is very facile and intuitive and highly amenable to cursive writing as well as keyboarding and voice transcription. More scientifically and systematically organized than even Hangul, NAVLIPi incorporates essential features of a universal script, thus far present in no world script to date, such as universality, completeness, distinctiveness, and practical phonemic application. It is felt that NAVLIPi is introduced at an appropriate time for a globalized world, which needs a single script in which it is easy and intuitive to transcribe all of the world s languages; it may also assist in the preservation of endangered languages. Apart from presenting the new script, the book also presents a thorough review of nearly all prior art through five millennia to the present, a basic discussion of phonetic and phonemic classification, exercises in coming up with new scripts, a glossary of terms, and more than 620 detailed references in linguistics and related fields. Nicholas Ostler makes...
